Foreword and Acknowledgments

Among the many contributions to scholarly endeavor in the field of Chinese painting made by Dr. Osvald Sirén were his "Annotated Lists of Paintings and Reproductions of Paintings by Chinese Artists." These "Annotated Lists" were published as a part of his Chinese Painting, Leading Masters and Principles (The Ronald Press Company, New York, 1956-58, 7 volumes).

Since 1956, the publication of reproductions of Chinese paintings has continued at a great pace throughout the world. The Chinese themselves have issued many of these publications. A few private Chinese collectors, living in Hong Kong, Japan and elsewhere, have made their paintings accessible for study through illustrated catalogues of their collections. The bulk of the Chinese publications, however, are the result of government sponsorship both on Mainland China and on Taiwan.

On the Mainland, an extensive publication program had reached the stage where several of the museums established after 1948 (such as those in Shanghai, Suchou, Tientsin and Liao-ning) had produced illustrated catalogues of their painting collections, sometimes with color plates of excellent quality. All this was brought, regretfully, to a sudden and complete halt by the Great Cultural Revolution in 1966.

On Taiwan, the National Palace and Central Museums published a three volume descriptive catalogue of the collection of calligraphy and painting in that Museum in 1956 (Ku-kung shu-hua lu 故宮書畫錄); this was followed in 1959 by the large and handsomely illustrated six volumes of Ku-kung ming-hua san-pai chung 故官名畫三百種 Three Hundred Masterpieces of Chinese Painting in the Palace Museum. More recently (1966), the National Palace Museum started a ten volume work reproducing paintings in the collection (Ku-kung ming-hua 故宮名畫). In addition, the National Palace Museum is currently issuing two excellent periodicals devoted to scholarly articles on the materials in the Museum's collection: The National Palace Museum Bulletin and Ku-kung chi-k' an 攻苦克勵 The National Palace Museum Quarterly. Undoubtedly, this publication program will be continued.

Both on the Mainland and on Taiwan, there has been a tendency to extract the maximum use out of a single large group of photographic plates: the plates may all be reproduced in a single work, then one or more selections from and re-arrangements of this corpus of material will be made and published in different formats with different titles.
All of these publications have provided a tremendous flood of pictorial material (both new and old) for art historians and students of Chinese painting. The very bulk of the materials published over the last decade or so and the inevitable duplication of some paintings in several books has given rise to a pressing need for these published materials to be reviewed and presented in a systematic fashion. Thus, in 1965, Professor Richard Edwards suggested that the task of reviewing these publications in the form of an annotated bibliography accompanied by an index to the paintings reproduced in these books be undertaken. Dr. Edwards' constant interest in this project and his frequent assistance has been invaluable. Professor James Cahill has been equally enthusiastic in his support of the project. In addition to providing pieces of valuable information, he has also lent volumes from his personal library.

Several libraries throughout the country have been utilized in the course of completing this project; particular gratitude is due to Mr. Raymond Tang, Curator of the Chinese Collection of the Asia Library at the University of Michigan for his efforts on behalf of this project. Many thanks are extended to Mr. Wu T'ung and to Mrs. Yiu-fong T. Dew for their willing and competent assistance in checking the materials and in working on specific problems. To Miss Louise Ripple fell the task of proof-reading; her invariable good humor during the long hours spent in this tedious work was much appreciated. Sincere gratitude, appreciation and thanks are due to R. Laing for his unlimited patience and for assistance in innumerable ways.

The entire project could not have been completed without the assistance of a grant from the American Council of Learned Societies and a Research Grant-in-aid from Wayne State University. The interest and cooperation of the Center for Chinese Studies at the University of Michigan is, of course, gratefully acknowledged.
Notes on the Bibliography

The Bibliography includes publications issued between 1956 and August, 1968 which reproduce Chinese paintings now in Chinese public or private collections. The great majority of these publications were produced in Mainland China, Taiwan, Hong Kong or Japan. The two exceptions are the Western publications Art Treasures of the Peking Museum by Francois Fourcade and the Skira catalogue Chinese Art Treasures, both of which were included because they contain illustrations of paintings exclusively in Chinese museums.

Each publication included in the Bibliography has been provided (in addition to the usual bibliographical data) with a detailed physical description of the publication itself: the amounts of text, the number of plates in color and in monochrome, and a general evaluation of the quality of the reproductions. The great disparity in the actual sizes of Chinese paintings and the need to reproduce heterogeneously sized paintings in a standard size to fit a given publication inevitably leads to great differences in the clarity of the reproductions within one book. This and other reasons inherent in the nature of reproduction processes, made it impossible to establish and abide by a simple, standardized scale of judgment in the evaluation of the plates. The evaluations, then, are given with qualifications whenever possible. It is hoped that these annotations will prove helpful to the librarian and scholar alike. The title by which each work is referred to in the Index is included at the end of each entry.

Guide to the Index

Only those paintings reproduced in the publications listed in the Bibliography are covered in the Index. It is expected that the Index will be used in conjunction with Osvald Sirén's "Annotated Lists." For this reason, the Index is arranged according to Sirén's general scheme: by dynasty and then by artist in alphabetical order. Anonymous paintings are listed by subject matter at the end of each dynastic list.

Brief biographical information is given in the Index for each artist. For the sources of biographical information (and for additional paintings not found in the Index), reference is given to the volume and page where this artist and his works are found in Sirén's "Annotated Lists" (see example below). In some cases, the artist's dates given in the Index will vary from those found in Sirén's "Annotated Lists." Unless otherwise noted, these new dates have been taken from Kuo Wei-ch'üan Ming Ch'ing shu-hua-chia nien-piao (An annual chronology of Sung, Yuan, Ming and Ch'ing dynasty calligraphers and artists, Jen-min mei-shu ch'u-pan-she, Peking, 1962). For those artists not mentioned in Sirén's "Annotated Lists," the biographical sources are indicated in the Index by the same alphabetical key employed by Sirén and includes a new entry: "W" (see example below). For the sake of convenience, a key to these biographical sources and their code letters is provided before the Index proper.

The paintings for each artist are arranged in two main categories: dated and undated works. The dated paintings are listed in chronological order. The undated paintings are listed first by order of appearance in Sirén's "Annotated Lists" (the subject matter of a few paintings has warranted exceptions to this); these are followed by the remaining undated paintings arranged according to museum (beginning with the National Palace Museum, Taipei and the Palace Museum, Peking, then other Chinese museums in alphabetical order, then non-Chinese museums); then those paintings in private collections, with Chinese collections first, in alphabetical order; and finally, those paintings in unknown locations according to the title of the book in which they are reproduced. The anonymous paintings, categorized according to subject matter, are listed first according to the order of appearance in the anonymous paintings sections of Sirén's "Annotated Lists;" then those paintings listed elsewhere in Sirén's "Annotated Lists" (according to dynasty and artist in alphabetical order); then those paintings which have multiple attributions.
to artist or period, but which are not in Sirén's "Annotated Lists," and finally by the same museum, private collection and unknown location arrangement as used for listing the works of specific artists. For paintings which have been reproduced under multiple attributions or as by anonymous artists of different periods, the entire entry is repeated under as many headings in the Index as appropriate (see example below).

Many of the paintings reproduced between 1956 and 1968 were also reproduced prior to 1956 and were listed by Sirén. Every effort has been made to collate these reproductions; to indicate that a painting has been listed by Sirén, the title used by Sirén has been retained (in some cases, lengthy descriptive titles have been shortened) and the abbreviation "AL" ("Annotated Lists") appears at the end of the title portion of the entry. When it has been possible to determine that Sirén listed a single painting under more than one title, all titles are included in the Index entry. For those paintings which have been reproduced under multiple attributions or as by anonymous artists of different periods and which are listed somewhere else in Sirén's "Annotated Lists," the name of the artist or the appropriate anonymous list under which this painting will be found in Sirén's "Annotated Lists," has also been noted (see example below).

The Index includes references to each place a specific painting is reproduced in the books listed in the Bibliography. Many short titles for these books have been used throughout the Index; a key to these short titles is provided before the Index proper. An asterisk after a plate number signifies a color reproduction.

Artist entries

LI TUNG 李唐 . Active during the reign of emperor Li-tsung (1225-1264). (H. 4; M. p. 195.)

Li Tung is not included in Sirén's "Annotated Lists." Li's biography will be found in chilan 4 of H: Hsia Wen-yen, T'u-hui pao-chien and on page 195 of M: Sun Tao-kung, Chung-kuo hua-chia jen-ming ta tz'u-tien.

HUANG CH'UAN 黃荃 , t. Yao-shu 宋 闋 . B. c. 900, d. 965, from Ch'eng-tu, Szechuan, served as tai-chao under Meng Ch'ang of the Later Shu dynasty (935-965), painted flowers and birds, Buddhist and Taoist subjects. (CP, II, AL, 28-29.)
Huang Ch'üan is listed by Sirén. Additional biographical information and sources as well as the paintings by Huang listed by Sirén will be found on pages 28-29 of the "Annotated Lists" (AL) in volume II of Sirén's Chinese Painting, Leading Masters and Principles (CP).

Painting entries

Under Huang Ch'üan:

Four crows in a bare willow and two ducks on the water in snow, album leaf, Nat. Pal. Mus., Taipei, (AL). CKLTMC, II. 79 (as anon. Sung); KKMH, II. 17* (as Huang Ch'üan).

AL: indicates that this painting is listed by this title in Sirén's "Annotated Lists" under Huang Ch'üan. CKLTMC, II. 79 (as anon. Sung): this painting (sometimes given to Huang Ch'üan) is published as an anonymous Sung work on plate 79 of volume II of Ku-kung po-wu-yüan so ts'ang Chung-kuo li-tai ming-hua chi. KKMH, II. 17* (as Huang Ch'üan): this same painting is published as being by Huang Ch'üan in color (*) on plate 17 of volume II of Ku-kung ming-hua. Because this painting is published both as a work by Huang Ch'üan and as an anonymous Sung work, it is listed twice in the Index: once under Huang Ch'üan as above and again under anonymous Sung, Flowers and Birds:

Four crows in a bare willow and two ducks on the water in snow, album leaf, Nat. Pal. Mus., Taipei, (AL, Huang Ch'üan). CKLTMC, II. 79 (as anon. Sung); KKMH, II. 17* (as Huang Ch'üan).

AL, Huang Ch'üan: indicates that this painting is listed by this title in Sirén's "Annotated Lists" under Huang Ch'üan. The painting does not appear in Sirén's anonymous Sung List.

The same system of multiple entries and cross-references to Sirén's "Annotated Lists" has been employed in the Index for all anonymous paintings assigned to more than one period.
